

Wisconsin Architect

AWARDS II

JUNE 1979

A Publication of the Wisconsin Society of Architects, American Institute of Architects

We've got what you want. Andersen.

Whatever your style, whatever your structure, we've got an Andersen®window and

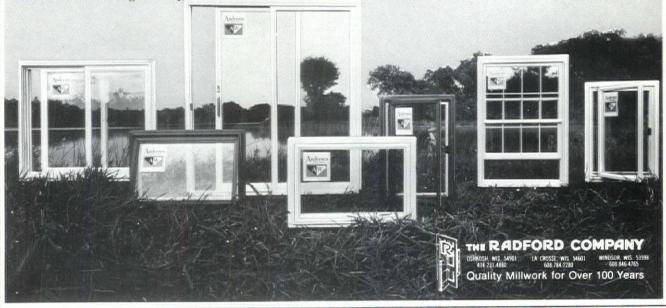

gliding door to match.

There's low upkeep Perma-Shield® windows and gliding doors for beauty without bother. Their treated wood core is sheathed in rigid vinyl that doesn't need

painting every few years.

And Andersen primed wood windows and gliding doors offer the charm and character of natural wood. And a beauty that goes unmatched.

Commercial or residential, contemporary or traditional, we've got what you want.

"Congratulations To Brust & Zimmerman, Architects For Their Honor Award For The Community Memorial Hospital In Menomonee Falls."

"Congratulations To Maynard Meyer & Associates, Architects For Their Honor Award For The Jeremiah Curtin Hall - University of Wisconsin (Milwaukee)."

"We Are Proud To Have Been Selected To Do The Electrical Work
On Both Of The Above Honor Award Projects."

HOW TO SAVE ON FUEL COSTS

 Simply invest in Weather Shield windows, Lee Haven doors, and Patio doors with our optional 1 inch triple insulating glass units. Save on both HEATING AND COOLING COSTS throughout the year.

Call or see your Weather Shield representative today for further information or call 715-748-2100.

"WISCONSIN A.I.A. 1979 EXHIBITOR"

1979 AWARDS FOR EXCELLENCE IN ARCHITECTURE

In the May issue we presented six of the thirteen Awards for Excellence in Architecture. This issue includes the other seven Awards. These 13 projects were judged as best solving the design problems presented by the owner.

Pictured above are the three members of the jury. From left to right they are John G. Rauma, FAIA, Robert G. Cerny, FAIA, and Raymond C. Ovresat, FAIA.

The following quotes from the jury relate to all of the 46 entries . . .

Robert Cerny: "Particularly impressed with the high quality of the submissions. There is wide variation among the buildings." "The work submitted here is of high quality and will provide leadership to other communities."

Rauma: "There were evidences of very concerned professional effort particular in several town situations where there was evidence that the architect had assumed a leadership role."

"It is quite clear that in Wisconsin the architectural professional is very seriously dealing with the energy issue."

Ovresat: "I think another thing that is happening is that the level of appreciation and taste on the part of the public and private sectors is improving."

The Award Certificates were presented to the architects, owners and contractors by President John B. Hipp, AIA, and Wayne E. Spangler, AIA, Chairman of the Awards Committee at the Awards Luncheon during the State Convention.

Congratulations To Owen Ayres & Associates, And Hackner, Schroeder, Roslansky & Assoc. For Their Honor Awards On The Eau Claire Public Library

power failures . . . can mean business failures.

When the power goes out, you can tally the hours with dollar signs. Electrical blackouts take their toll in lost production and lost sales.

But blackouts don't have to happen to you.

A Kohler automatic emergency standby system can meet your power needs. When power goes off, Kohler comes on, automatically. Your business stays in business.

See us for more information on Kohler's emergency generator systems for industry, institutions, business, farms, and private homes.

Architect:

HSR & Associates, Inc.

La Crosse, Wisconsin

Project:

Eau Claire Public Library

Eau Claire, Wisconsin

Owner:

City of Eau Claire Library

Eau Claire, Wisconsin

Contractor:

Hoeppner Bartlett Co.

Eau Claire, Wisconsin

Jury Comments: "Extremely difficult site is skillfully resolved to provide excellent access for pedestrians from main business center, good access to patrons arriving by auto, and direct access for bookmobile and service vehicles. The demands of library function are clearly resolved and evident in the exterior form and interior spaces, which suggest warmth and intimacy of scale. The main public approach affords a feeling of amenity. Public

architecture of superior quality.

Photo by Mike Huibregtse

Architect:

Brust-Zimmerman, Inc.

Milwaukee, Wisconsin

Project:

Restoration of Milwaukee Public Schools

Milwaukee, Wisconsin

Owner:

Milwaukee Public Schools

Milwaukee, Wisconsin

Jury Comments: "A fresh, imaginative and economical facelift of schools in the urban context that has made them again attractive, alive and fun places to look at and be in. They have refocused interest in the delight of their proud and unique architectural features and brightened their neighborhoods."

Most cost-cutting construction methods cost more in the long run, **FiberBond** doesn't.

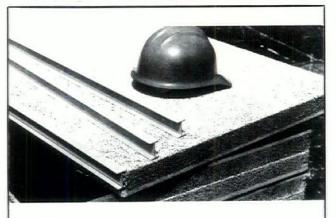

Fiber-Bond surface bonding system is our first choice in helping you provide superior masonry walls for commercial block wall construction. Buildings that cost less to construct and less to maintain than those constructed with most competitive systems, and buildings that offer superior appearance as a bonus.

Spray-applied to the interior and exterior walls, Fiber-Bond has proved itself in schools, ware-houses, commercial buildings, motels and for refurbishing old buildings.

Fiber-Bond for predictable construction time and lower total building costs. Call us before your next project reaches the bidding stage.

Project:

Private Residence

Owner:

Anonymous

Contractor:

Arthur Freigang & Sons Pewaukee, Wisconsin

Jury Comments: "This residential addition establishes an entirely new character while utilizing and integrating the architecture and scale of the original dwelling. While using architectural devices, which are currently au-courant-cliche, these incorporated effectively in enhancing the effectiveness of the plan requirements and in adaption of the entire composition towards a new unified architectural character.

Contractor:

Becker Construction Co. Wauwatosa, Wisconsin

Jury Comments: "A substantial expansion that has resulted in a whole new look, consistently bold and well done inside in accent color, and outside in a restraint of materials use and detail that is elegantly tailored and inviting."

SUMMARY REPORT LEGISLATION AND ADMINISTRATIVE ACTIVITY OF INTEREST TO THE WSA

Sponsor

Gov. Dreyfus

Bill No. SB 79 Subject: Budget Bill (proposed to eliminate position of Exec.-

Sec'y to A-E Board)

Comment: WSA supports language which would eliminate

position of Exec.-Sec'y to A-E Board Status: Before Joint Finance Committee

Sponsor Rill No. Gov. Dreyfus SB 79 Subject: Budget Bill (implementation of Federal Clean Air Act)

Comment: Under study

Status: Before Joint Finance Committee

Sponsor Gov. Dreyfus SB 113

Subject: Reorganizes A-E Board from 16 to 9 members and with no sections

Comment: WSA opposes the total elimination of sections

Status: Before Senate Committee on Business which has tentatively indicated that the proposed reorganization of the A-E Board will be dropped from the bill

Sponsor Bill No. Sen. Krueger and Sen. Kreul SB 132 Subject: Repeal of one and two family dwelling code

Comment: WSA opposes bill

Status: Before Senate Committee on Agriculture and Local Affairs - no public hearing to date

Sponsor Rep. Lee No # assigned

Subject: Fall Out Shelters

Comment: Repeals law which requires A-E's to indicate if Fed. Fall Out Shelter Standards are met in public buildings

Status: Before Remedial Legislation Committee. WSA supports.

Sponsor Bill No. Sen. Berger **AB 44**

Subject: Legislative control over administrative rules

Comment: Provides greater legislative oversight and review of actions by administrative agencies

Status: Before the Joint Committee for Review of Administrative Rules - no hearing to date

Sponsor Bill No. Sen. Berger **AB 45**

Subject: Legislative control over administrative rules Comment: Provides greater legislative oversight and review

of actions by administrative agencies

Status: Before the Joint Committee for Review of Administrative Rules - no hearing to date

Sponsor Bill No. Rep. McClain AB 51

Subject: Construction liens on residences

Comment: Would change law to require notice before commencing work (under current law must give notice within 60 days after starting)

Status: Before Assembly Commerce Committee — no hearing

to date

Sponsor Bill No. Rep. Behnke AB 71 Subject: Contractor's notice of lien claim on public project

Comment: Shortens period within which prime contractor can serve notice

Status: Before Assembly Judiciary — no hearing to date

Sponsor Bill No. Rep. Opitz and others

Subject: Limiting applicability of 1 & 2 family dwelling codes Comment: Makes optional the provisions of 1 & 2 family dwelling code

Status: Before Assembly Local Affairs — no hearing to date

ADMINISTRATIVE RULES AND MISCELLANEOUS MATTERS

Topic: 1. BFM rules on A-E procurement

Status: Approved by BFM in a form acceptable to WSA and now being reviewed by Legislature

Topic: 2. DILHR release of plans to third parties

Status: a) DILHR not releasing without first contacting owner of plans

b) Matter being reconsidered by Attorney General's office

Topic: 3. Art for public building Status: Proposed bill being redrafted Comment: WSA supports the concept

Topic: 4. Repeal of Eminence Clause Status: Waiting for WSPE action

Comment: They still undecided (to be reconsidered by them on 4/28/79)

Topic: 5. Examination for entry level architects in Wisconsin

Status: Under study by testing consultant (N.E.S.)

Comment: Report due in June

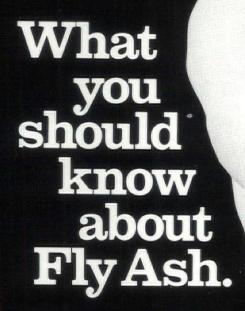

Topic: 6. Plumbing Code consolidation Status: Before Secretary Noll

Comment: WSA supports and is waiting for Secretary Noll to

introduce legislation

Architects, contractors, concrete producers! Interested in cutting construction costs while improving concrete performance? Then learn about fly ash!

Produced as waste at power plants, fly ash is the residue of pulverized coal. Its fine, spherical shape, and composition of silica, aluminum and iron, make it the ideal admixture in concrete, replacing tons of more costly portland cement. Its use results in improved workability and pumpability, plus reduced heat of hydration. And the finished product is more resistant to acid and sulfate attack, more watertight, stronger and more durable.

Today, fly ash can be found nationwide in major office buildings, highways, parking ramps, basement foundations and floors, sidewalks, general home constructions — anywhere ready-mixed concrete, concrete block or concrete pipe is used. And anywhere the highest quality product is wanted at the lowest possible price!

Find out what you should know about fly ash. Get your FREE Fly Ash Kit by contacting:

EXECUTIVE COMMITTEE ACTIONS

SOCIETY NEWS

President Hipp reported membership income and project income for the WSA which reflects increases in new members and excellent booth sales for the 1979 Convention. Expenses are in line with the budgeted amounts.

The Executive Committee approved a proposal to reorganize the Wisconsin Architect Inc. with the WSA Primary Officers serving as the Board of Directors of the Wisconsin Architect Inc.

It was reported to the Executive Committee that the NAAB Accrediting Team had visited the School of Architecture at UWM during April. William Wenzler, FAIA, Chairman of the WSA Liaison Committee to the School of Architecture, Ron Bowen, AIA, member of the Liaison Committee and Alan Carlson, WSA Executive Director met with the NAAB Accrediting Team. Serving on the Accrediting Team were WSA member George Schuett, FAIA; the Dean of the School of Architecture at Mississippi State University and the President of National AIA Student organization along with several architects in private practice, and an educator. The pluses and minuses as seen through the eyes of the Wisconsin AIA members was expressed. The Accrediting Team inquired as to the workings of the Liaison Committee with the School and to the participation on the WSA Executive Committee by School of Architecture faculty and students. The Executive Committee presently has one educator from UW Extension however, there are no school of architecture faculty on the Executive Committee presently nor are there student members.

The summary report of legislation and administrative activities of interest to the WSA was reviewed. It is reproduced in this issue of the magazine.

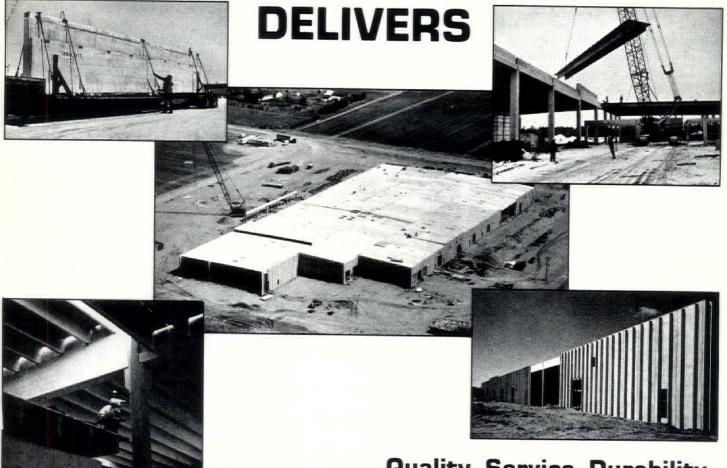

Also reproduced in this issue is a copy of the 1979-81 State of Wisconsin Building Commission Recommendations.

WSA Members sometime ago received a letter from Rep. Sharon Mets of the State Assembly. It inquired as to the abilities of our state architectural firms to the energy audits and other energy related work. Dave Lawson, Chairman of WSA Governmental Affairs Committee urges WSA members to respond positively to Ms. Mets and other inquiries for information as to your involvement in energy work. A letter has been sent to Ms. Mets from WSA in support of architects in the state and their involvement in energy matters.

Pictured above are the WSA Executive Committee members in action at their monthly meeting. The April meeting was held at the Nicolet College Campus, Rhinelander, Wisconsin. The Executive Committee

SPANCRETE

When Ore-Ida Foods, Inc., one of America's major frozen food companies, needed a 170,000 square foot structure to house a potato processing plant in northern Wisconsin, they chose Spancrete. They knew Spancrete systems are highly flexible and could be tailored to meet a variety of specific architectural and structural requirements. They also knew Spancrete prestressed and precast concrete provides fast erection, low maintenance costs, and ease of expansion.

On-Time

The construction manager for the on-site engineering firm said, "Spancrete's involvement in the project was outstanding. Various phases of construction including erection and grouting were completed in the below zero weather of the brutal 1977 Wisconsin winter."

Quality, Service, Durability

So when it comes time for your next project, remember Spancrete. We've got the product, the systems, and over 30 years of experience in the industry. We've developed a history of close working relationships with architects and engineers in designing systems to meet their special requirements.

We would like to work with you.

For the details contact:

SPANCRETE INDUSTRIES, INC.

10919 West Bluemound Road Milwaukee, Wisconsin 53226 Phone 414/258-4110

• Columns • Beams • Double tees • 8' and 10' single tees • Bridge girders

meetings are scheduled in the four chapter areas on a monthly basis. Guests at this meeting were Carl Liebert, AIA of Rhinelander and Eric Friis, AIA of Eagle River. As an AIA member, you are invited to join the Executive Committee meeting when it is scheduled in your area. 1979 meetings are scheduled as follows:

July 12 — Sheboygan August 9 — Madison September 13 — La Crosse October 12 — Wisconsin Rapids November 8 — Madison December 13 — Milwaukee

Please check with your officers or the WSA office for location and details.

PEOPLE AND PLACES

H. James Gabriel, AIA was named as new president of the Stubenrauch Associates, Inc., Sheboygan, Wisconsin. Gabriel, joined TSA 16 years ago. He is a graduate of the University of Minnesota and a past president of the Northeast Chapter of the Wisconsin Society of American Institute of Architects.

Norbert C. Schaefer, the former President and WSA Professional Affiliate member, was reelected Chairman of the Board and Chief Executive Officer, as were LeRoy Tislau, Associate AlA member, Secretary-Treasurer; Paul Dinkins, AlA and Frank Wagner as Vice Presidents. Fred C. Steinhaus, AlA and Edgar A. Stubenrauch, AlA were also reelected directors-emeritus.

The firm was founded by Edgar A. Stubenrauch, AIA in 1920. He will be 85 years old this year and still serves as a consultant to the firm.

Wenzler and Associates has added to the staff an Associate, William W. Hatcher, to act as Director of Real Estate Consulting Services, General Management Consulting Services; Financial Analysis & Packaging; Feasibility and Market Research Studies; Real Estate Development, purchase and sale. Hatcher has worked as a real estate consultant for the Wenzler office over the past five years, while acting as a Real Estate Unit Supervisor and Real Estate Productions and Development Specialist for the Northwestern Mutual Life Insurance Company. Prior to 1974 he was a Housing Analyst for the State of Wisconsin and a Real Estate Consultant and Marketing Research Manager & Analyst for the First Wisconsin National Bank of Madison. Hatcher holds a B.B.A. degree in Real Estate and Urban Land Economics, and a M.S. degree in Real Estate Appraisal and Equity Investment. He is a founder of the University of Wisconsin Handicapped Students Association and the Handicapped Students of Wisconsin Inc.

Mochon Schutte Hackworthy and Juerrison Inc. have recently changed their firm name to Mochon Hackworthy, Juerrison Inc.

Allan Birschbach, AlA is now with Keller Structures, Inc., Kaukauna, Wisconsin.

Torkelson and Associates, Madison have relocated to 216 North Midvale Blvd., Madison, Wisconsin 53705. Phone (608) 238-7161.

More block magic from BEST BLOCK

More and more fine professionals are finding magic in Best Block's decorative concrete masonry units.

And why not! With Best Block's amazing variety of design possibilities, plus many other time and money saving advantages, it's easy to see why Best Block is a proven pleaser for architects, builders, owners and tenants alike.

And to please all those demanding people, it must be magic!

For more information on block magic, contact the people who are writing the book on it.

David E. Malmgren, AIA, has joined Fischer/Schutte, Inc., Appleton, Wisconsin. Malmgren has worked in the offices of Mies Van der Rohe, Chicago, Illinois and at Larson, Hestekin, Smith, Ayres, Ltd., Eau Claire, Wisconsin.

Frederick A. Schutte has joined Fischer/Schutte, Inc., Appleton, Wisconsin and will be vice-president in charge of the firm's Milwaukee office. He will also head the firm's mechanical engineering and energy management divisions. Schutte is a former partner of Mochon - Schutte - Hackworthy and Juerrison, Milwaukee.

ARCHI-TALKS

"It was a delight to see the May issue cover of AIA Wisconsin Architect with its picture of the wood and glass prize-winning house by Wisconsin Architect Clint Mochon. Always of special interest are the environments architects create for themselves. How about making this a monthly feature with some emphasis on site and interiors as well as the exteriors. — J.B."

"I have been dismayed to see the continued plastic-neon design prevailing in almost all large shopping centers in the state. If these are indeed becoming the new "village square" — why can't they have more good design, warmth and "human" scale. Is there any shopping center going up in the state which really does use the wood, stone and native trees and even some of our best Wisconsin art and sculpture instead of the current ugly "shopping center plastique"? Why aren't architects working on this? — E.M."

Send your comments, reactions to: Architalks, 819 N. Marshall, Milwaukee, Wisconsin.

Here is your opportunity to speak out. The Editorial Board reserves the right to edit but it will not change the intent of any submission. Copy must be submitted with the author's name but names will not be published if that is the desire of the author. Again, the Editorial Board wishes to make this a real "give and take" page. Please feel free to submit your thinking, your ideas and comments. Copy and/or manuscript must be submitted by the 15th of the month previous to publication. If you have a question, please feel free to contact Editorial Board members Peter Schuyler, AlA, Chairman; Uel Ramey, AlA, Betty Mead, Associate Member; Doug Ryhn, Associate Member or Alan J. Carlson, Executive Director.

NEW BOOKS

A fascinating new book has just been published on Bruce Goff, the prairie architect who spoke at the Art Center's recent symposium on the Prairie Architects. The book is not only articulate — it is meticulous in its understanding of what architecture is all about, and what Goff is all about. The Architecture of Bruce Goff is written by Jeffrey Cook, Arizona State University professor, writer, architectural historian and expert on solar energy. It is most timely with the resurgence of interest in Goff. The book is well illustrated and well worth it's cost (19.95).

INFLATION. ITHURTS ILLA IMPANION IN THE AMERICAN ECO.

This booklet helps explain why.

Everyone has a stake in reducing inflation. Unfortunately, not everyone understands why it occurs. Or the impact inflation has on our lives and our economic system.

That's why we've prepared this booklet. It explains inflation in simple terms. And suggests what every American can do to help control it.

The coupon will bring you a free copy of "Inflation in the American Economic System and your part in it..." Once you read it, we hope you'll want to order bulk copies for your company's employees, shareholders, plant communities, schools, libraries, and other groups.

You can be sure the price will be as non-inflationary as we can possibly make it.

The American Economic System.

We should all learn more about it.

ROY UNSIN, AIA, MEMBER EMERITUS, was approved for Emeritus membership in the Northeast Wisconsin Chapter.

The following resignations were accepted by the Chapter Officers of the WSA/AIA and The Institute.

EARL C. KUESTER, who was an AIA Member in the Southeast Wisconsin Chapter;

JOHN C. MURPHY, who was an AIA Member in the Southeast Wisconsin Chapter.

EMPLOYMENT OPPORTUNITY

ARCHITECT, State Historical Society of Wisconsin, Old World Wisconsin Museum.

Serve as professional resource person in matters relating to historic preservation, restoration, maintenance, adaptive use exhibit planning on 576-acre outdoor museum. Supervise planning restoration and maintenance sections. Prepare and supervise preparation of blueprints, specifications, cost estimates, budgets and timetables for these sections.

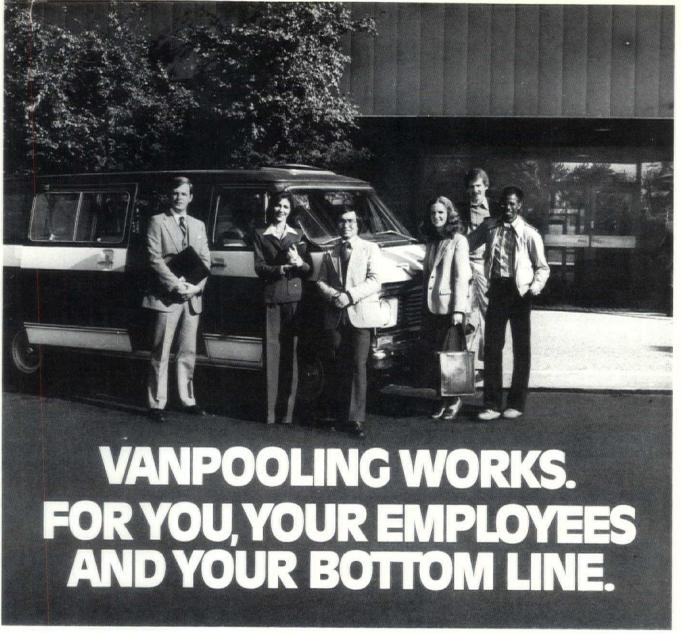

Salary, \$20,568 to start.

Send application to: Ms. Barbara A. Showers (608/266-8232) Wisconsin State Division of Personnel 149 East Wilson Street; Madison WI 53702

Senior Architect: Responsible for a group of project managers and for the technical excellence of projects, an experienced manager with organization and technical qualifications for institutional facilities.

Project Manager: Responsible for projects throughout the duration of contracts, an effective and organized manager with knowledge and experience in hospital facilities.

Please send resume to: Donald F. Cuddihee, AIA, Assistant Vice President URS Hewitt & Royer, 9225 Ward Parkway, Kansas City, MO 64114

As a business executive, you ought to know the ways vanpooling works for you. It improves employee performance. Vanpooling provides a pleasant and convenient means of commuting for your employees and cuts tardy arrivals for you.

It cuts down on hassle for everyone, by alleviating neighborhood traffic congestion.

Vanpooling improves your bottom line. Because it cuts down on parking requirements. And based on average costs of construction and maintenance, that can save you \$1,500 per year per space.

And above all, vanpooling saves valuable fuel. Close to 3,000 gallons per year per van.

To put a vanpool to work for you, write for our vanpooling kit to:

Each year the United Negro College Fund pays off with thousands of black graduates with valuable training America's industry needs today. It's no wonder that UNCF member schools have become a natural resource for accountants, managers, economists, engineers and technicians.

And that's only scratching the surface because there is so much raw talent out there. Take this 11-year-old child, for example. Right now his mind is like raw material ready to be developed. But this can happen only if you are willing to invest in the United Negro College Fund.

Your contributions give our young as gold. people the opportunity to attend the 41 private, predominantly black, fouryear colleges and universities sponsored by the UNCF. If we couldn't

keep our tuitions low and grant financial aid, some 70% of our students couldn't attend college at all.

UNCF graduates have proven to be a precious commodity to the business community. And that's as good

Send your check to the United Negro College Fund, Box N, 500 East 62nd St., New York, N.Y. 10021. We're not asking for a handout, just a hand.

GIVE TO THE UNITED NEGRO COLLEGE FUND.

A mind is a terrible thing to waste.

Three good reasons for selecting Weil-McLain

THE CHOICE - Choose from a complete line of oil, atmospheric gas, and combination gas/oil boilers, from 187,800 to 6,060,900 BRU/Hr.

THE FLEXIBILITY - Match any job requirement with a choice of factory-tested packages, factory-assembled sections or individual sections.

THE QUALITY - Only Weil-McLain has such quality features as flame-retention oil burners, asbestor rope seal. short draw rods, multiple tankless water heaters, forced draft firing and, of course, cast iron construction.

Choice, flexibility, and quality three good reasons for contacting your nearest Weil-McLain distributor.
